

IB303 – Anatomy (4 credits)

Course Syllabus

Course Description: This course will provide an overview of the diversity of body structure in vertebrate animals. The variation in body structure seen amongst vertebrates will be investigated from evolutionary, functional/biomechanical, and human health perspectives through lectures, online activities, and face-to-face laboratory activities. Through this course, students will develop a better understanding of the vocabulary of anatomy, the structural design of vertebrates, a basic understanding of the biomechanical underpinnings of these structures and how vertebrate structure, phylogenetic history and function combine to create the diversity of forms seen in nature.

Course Structure: This is a 4-credit course including a lab.

Lecture: Lecture will be held in the Psychology Building, Rm 23, three days a week, MWF from 11am-12pm. There will also be lecture quizzes and other activities posted on the Moodle site to be done online. Aside from lectures, you should plan on devoting 6-7 hours a week on course work, although specific times will vary depending on your input, needs and personal study habits.

Labs: Natural History Building, Rm 4002. 1 day a week/3 hours, NOTE: labs will require the dissection of preserved cat tissues. There is no way to complete the course successfully without dissection.

SLO:

1. Learn basic anatomy and terminology for a series of vertebrate organ systems.
2. Explore the developmental origin of several anatomical systems
3. Compare and contrast the basic anatomy of each system across multiple vertebrate groups
4. Follow the evolution of certain anatomical structures across vertebrates.
5. Analyze the function of several anatomical system utilizing simple biomechanical models
6. Identify the role of different anatomical systems in the integrated whole of the vertebrate body.
7. Apply knowledge learned to human health issues associated with anatomy.

Prerequisites: IB150, or consent of instructor.

Requirements met: IB major, upper level lab course.

Lecturer: Dr. Philip Anderson
Office Location: Vivarium 202A
One on One support: By appointment
Email: andersps@illinois.edu

I will aim to respond to course-related emails within 24 hours except on weekends. Keep this in mind when emailing questions concerning assignments with deadlines.

Lab Instructor: Joanne Manaster
Email: joannema@illinois.edu
Joanne manages the laboratory and addresses concerns related to lab teaching, the practical exams, and lab absences.

Teaching Assistants:

Brad, Kasey and Ratna are graduate students in the School of Integrative Biology. They teach the laboratories and help create, set up, proctor, and grade the practical exams as well as help to grade the lecture exams.

Communication Plan

As an enrolled student, you will have access to the course from your Moodle dashboard. It is also accessible here: <https://learn.illinois.edu/course/view.php?id=59776>

What you will find on Moodle:

- The syllabi for lecture and lab
- Lecture quizzes, activities and exams.
- Videos of dissection and affiliated quizzes
- Weekly pre-lab video quizzes and lab manual quizzes
- Updates from the instructors and TAs.
- Resources, lecture notes and handouts.
- Course gradebook

Announcements will be updated every week on the site and will be made visible on the main page. All schedules and deadlines will be posted both on the announcements page when they are approaching and at all times on the individual module pages at all times. Announcements will also be made during lecture, but everything announced there will also be posted on the site.

If you have an inquiry, you can use the emails listed for each instructor. Their bio section will also note how fast to expect an answer. If you would like further one-on-one discussion with Dr. Anderson please reach out via email to set-up an appointment. Dr. Anderson can also meet with small groups of students for discussion if you prefer.

As with all communication in a class, the expectation is for students to act in a professional and kind manner when interacting with both each other and with instructors. A full description on netiquette is listed below.

Time and Place

Lecture classes will meet from 11-11:50AM on MWF in the Psychology Building Rm 23. This lecture hall is large enough to allow for social distancing if students prefer. We ask that all students respect each other's preferences when it comes to social distancing and maintain the standard distance unless both individuals are comfortable sitting closer to each other. After each lecture, there will be a short (~5 question) lecture quiz posted on the Moodle site. Quizzes should be completed by midnight the day of the lecture. These quizzes are worth 10 points apiece and will help ensure that students are following along with the material.

Lab classes Students will begin the week by watching an asynchronous lesson of the TA dissecting and showing the structures and explaining the background of the material. This will be of tremendous help to do this activity before the lab course. There is a quiz associated with this activity, and those who complete it before the lab will receive 10 points. After the lab section, the video will still be available but will only be worth 5 points. TBD

Then, students will attend their assigned lab section.

Section	Day	Time (original)	TA
AB1	Monday	2-4:50pm	Brad
AB2	Tuesday	9-11:50am	Kasey
AB3	Tuesday	2-4:50pm	Ratna
AB4	Wednesday	2-4:50pm	Brad
AB5	Thursday	9-11:50am	Kasey
AB6	Thursday	2-4:50pm	Ratna

Expectations: Assessment in this course will include a combination of formative and summative assessments. Some are evaluated based on the answers given, others are evaluated based on participation. A full grade breakdown follows:

Grade Breakdown:

Lecture Attendance	40pts
Lecture Quizzes	130pts
Weekly activities	120pts
Module Exams	360pts
Lab Practical 1	20pts
Lab Practical 2	40pts
Lab Practical 3	70pts
Lab Practical 4	70pts
Pre-lab video/lab manual quizzes 10 quizzes, 10 points each if taken before your lab section	100pts
Lab Participation	50 pts
Total	1000 pts

Lecture Attendance

- Worth 40 points.
- Evaluated using iClicker activities during lecture.
- To earn the 40 points, must attend at least 75% of all lectures over the course of the term.
- We will take into account COVID-related absences, as outlined under policies below, when calculating this grade.

Lecture Quizzes

- Worth 130 points total (5 points for each of 26 lectures)
- Available on Moodle to be taken AFTER the lecture to evaluate comprehension of the lecture material.
- Each quiz will close by midnight the same day as the lecture.

Weekly activities:

- Worth 120 points total (20 points each for 6 activities)
- During certain weeks there will be an online activity to complete related to the current module subject.
- The form of activity will vary but may include directed lessons in Moodle, video activities and digital exercises. These activities will include some form of deliverable content to hand in that will be worth points.
- These will always be due Friday at 5pm the week they are assigned.

Module Exams:

- Each module will culminate in an exam.
- These exams will be combination of multiple choice and essay and be worth 60 pts apiece (360 pts overall) and be designed to be completed during a normal class period.

- Most of these exams will fall on Fridays, so be aware that attendance to Friday lectures will be mandatory.
- The exams will cover material from the lectures and are not cumulative.
- There will be no final exam.

Pre-lab video quizzes

- Worth 100 points total (10 points for each of 10 lab sessions)
- IMPORTANT: If taken after your lab session, possible points to be earned are reduced to only 5.
- Available on Moodle to be taken BEFORE the class to ensure you are prepared to engage with the material in the lab.
- All quizzes will be available from the prior Friday at 8am.
- **Exception for Week 1, the quiz will be available from Thursday 8/26, with full points possible even after your lab session.

Lab Participation

- Worth 50 points total, (5 points each for 10 lab sessions), you earn points for doing the following:
- Attending the class
- Remaining for 90 minutes to 3 hours.
- Having all supplies and safety gear.
- Participating in dissection.
- Assisting with clean up.

Lab practical exams

- There will be four lab practicals, worth 20pts, 40 pts, 70pts, and 70 points respectively. Practical will not be cumulative.
- There will be no final practical.
- Practical exams will be administered during a time choice on Wednesday or Thursday evening. For each practical, each exam session will have equivalent but different questions.
- Practical exams will be held in the laboratory space.
- The format of the exam will be short answer identifying the structure with a follow-up question to be answered.
- Make-up Practical exams are offered only for extreme documented excuses. Contact Joanne Manaster at joannema@illinois.edu to make arrangements.

Week beginning	Practical information
6-Sep Wed or Thurs 4-5, 5-6 or 6-7pm	Practical 1, No regular lab 20pts <i>Covers the skeleton</i>
27-Sep Wed or Thurs 4-5, 5-6 or 6-7pm	Practical 2, No regular lab 40pts <i>Covers musculature</i>
25-Oct Wed or Thurs 4-5, 5-6 or 6-7pm	Practical 3, No regular lab 70pts <i>Covers cardiovascular and respiratory</i>
29-Nov Wed or Thurs 4-5, 5-6 or 6-7pm	Practical 4, No regular lab 70pts <i>Covers digestive, abdominal cardiovascular, urogenital, nervous system</i>

Contesting Grades: If you feel that your assignment or exam has been graded inappropriately, you are welcome to contest grades via a written statement within one week of receiving the graded assignment. To contest a grade, you must submit a written statement via email of what you believe was graded incorrectly

and why the grade should be altered. Will not consider any contest of grades submitted after one week. Note, that contesting a grade means the item in question will be completely regraded, which may result in a lower grade overall.

Course Grading Philosophy

1) I do not 'curve' individual exams or assignments. Instead, I will assign grade cut off points based on the distribution of student point totals at the end of the semester.

2) I use the standard 90, 80, 70, 60% scores as starting cutoff points for A, B, C, and D grades, respectively. Depending on the distribution of points at the end of the semester I **may** drop the cut off points slightly (e.g., 88% might become the A cut off) but **I will not raise** the cut-offs.

Textbook: There is no textbook for the lecture portion of the course. Any required readings for a lecture will be posted on the moodle site as a pdf. Students who desire supplementary reading for further detail can access the following textbook:

Kardong KV 2014. Vertebrates: Comparative Anatomy, Function, Evolution, 7th ed.

Note that all exams will be based on the lecture and assigned readings alone, Kardong 2014 is suggested purely as a supplement and is not required. Several copies are on hold for the class at the ACES Library and available for purchase from the bookstore.

Lab Manual Required

Students must obtain a lab manual as it will be the guide for the lab portion. We are using a new one this year so borrowing from past year's students won't be possible.

Sebastiani, A and Fishbeck, D 2005. Mammalian Anatomy: The Cat 2nd ed.

Supplies

REQUIRED

- MASK, per university and CDC guidelines.
- Dissection Kit – students must supply their own basic dissection kit
 - Can be found at the bookstores or online.
- One-inch binder to hold the lab manual pages and handouts.
- Lab Coat – A lab coat protects your clothing.
- Closed Toe Shoes—scalpels are sharp!
- Safety glasses or goggles if you don't wear glasses.

We will provide latex-free gloves for use in the lab each week.

SHARING VIDEOS AND DISSECTION IMAGES IS PROHIBITED

DO NOT SHARE DISSECTION IMAGES ON SOCIAL MEDIA. As most of you are aware, there are people who are sensitive and will be shocked by these images or those passionate about animal rights and may wish to create havoc with our facility. For the safety of students and personnel, and the protection of our lab space, be mindful of how you share any photos you take. *Students found in violation of this policy may face a penalty.*

Course Calendar (Fall 2020)

Week beginning	Topic	Exam
23-Aug	Intro	--
30-Aug	Skeletal System 1	--
6--Sep	Skeletal System 2	Exam 1
13-Sep	Musculature 1	--
20-Sep	Musculature 2	Exam 2
27-Sep	Cardiovascular 1	--
4-Oct	Cardiovascular 2	Exam 3
11-Oct	Respiratory	--
18-Oct	Digestive	--
25-Oct	Respiratory/Digestive health	Exam 4
1-Nov	Urogenital 1	--
8-Nov	Urogenital 2	Exam 5
15-Nov	Nervous system 1	--
22-Nov	Thanksgiving, NO LECTURE	--
29-Nov	Nervous system 2	--
6-Dec	NA	Exam 6

Approximate Lab Schedule (subject to change)

Week beginning	Topic	Online Quiz
23-Aug	Skeleton	Quiz 1**
30-Aug	Cat skinning	Quiz 2
6--Sep	Practical 1, No regular lab 20pts	--
13-Sep	Musculature 1	Quiz 3
20-Sep	Musculature 2	Quiz 4
27-Sep	Practical 2, No regular lab 40pts	--
4-Oct	Cardiovascular, thoracic	Quiz 5
11-Oct	Respiratory	Quiz 6
18-Oct	Digestive	Quiz 7
25-Oct	Practical 3, No regular lab 70pts	--
1-Nov	Cardiovascular, abdominal	Quiz 8
8-Nov	Urogenital/reproductive	Quiz 9
15-Nov	Nervous system	Quiz 10
22-Nov	Thanksgiving, NO LAB	--
29-Nov	Practical 4, No regular lab 70spts	--

- Video Quizzes are worth 10 points each if taken before the start of YOUR lab session and are available from 8am the Friday prior to the week's lab.
- If you take the Quiz AFTER the start of your lab you will only be able to earn a maximum of 5 points.
- **Exception for Week 1, the quiz will be available from Friday 8/27, with full points possible even after your lab session begins.

Attendance Policies:

ATTENDANCE AT LECTURE IS REQUIRED. Exam material will be derived from lecture material. Therefore, there is no substitute for regular lecture attendance. If attendance is not possible, it is the responsibility of the student (i.e., YOUR responsibility) to contact the instructors or TA's to arrange for any materials distributed in class. If you miss a lecture, you should contact another student in the class to obtain lecture notes.

ATTENDANCE IN LAB IS REQUIRED. You must attend your lab section and ONLY your lab section, unless prior approval is received from Joanne. Completion of lab activities will be essential to your success on lab practicals.

YOU WILL NOT BE PERMITTED to make up exams or practicals if missed, unless you notify the instructors or TAs of your absence and bring a note from McKinley for illness excuses. For non-illness excuses, you must notify the instructors or TA of your absence at least ONE WEEK ahead of time. Rescheduling exams and practicals is entirely at the discretion of the instructors. Make up exams and practicals will ALWAYS differ from the regular exam, and may be in a different format than the regularly scheduled exam (i.e., written or oral exam). Make up practicals are especially difficult to schedule, and as such will be oral exams if made up.

COVID-SPECIFIC GUIDELINES

Attendance

Following University policy, all students are required to engage in appropriate behavior to protect the health and safety of the community. Students are also required to follow the campus COVID-19 protocols.

Students who feel ill must not come to class. In addition, students who test positive for COVID-19 or have had an exposure that requires testing and/or quarantine must not attend class. The University will provide information to the instructor, in a manner that complies with privacy laws, about students in these latter categories. These students are judged to have excused absences for the class period and should contact the instructor via email about making up the work.

Students who fail to abide by these rules will first be asked to comply; if they refuse, they will be required to leave the classroom immediately. If a student is asked to leave the classroom, the non-compliant student will be judged to have an unexcused absence and reported to the Office for Student Conflict Resolution for disciplinary action. Accumulation of non-compliance complaints against a student may result in dismissal from the University.

Face coverings

All students, faculty, staff, and visitors are required to wear face coverings in classrooms and university spaces. This is in accordance with CDC guidance and University policy and expected in this class.

Please refer to the University of Illinois Urbana-Champaign's COVID-19 website for [further information on face coverings](#). Thank you for respecting all of our well-being so we can learn and interact together productively.

Building Access

In order to implement COVID-19-related guidelines and policies affecting university operations, instructional faculty members may ask students in the classroom to show their Building Access Status in the Safer Illinois app or the Boarding Pass. Staff members may ask students in university offices to show their Building Access Status in the Safer Illinois app or the Boarding Pass. If the Building Access Status says "Granted," that means the individual is compliant with the university's COVID-19 policies—either with a

university-approved COVID-19 vaccine or with the on-campus COVID-19 testing program for unvaccinated students.

Students are required to show only the Building Access Screen, which shows compliance without specifying whether it was through COVID-19 vaccination or regular on-campus testing. To protect personal health information, this screen does not say if a person is vaccinated or not. Students are not required to show anyone the screen that displays their vaccination status. No university official, including faculty members, may ask students why they are not vaccinated or any other questions seeking personal health information.

COURSE POLICIES

All students are assumed to have read and understood the “Code of Policies and Regulations Applying to All Students,” University of Illinois, and will be expected to act accordingly.

The Code is available online at: <http://www.admin.uiuc.edu/policy/code/index.html>

Academic Integrity: According to the Student Code, ‘It is the responsibility of each student to refrain from infractions of academic integrity, from conduct that may lead to suspicion of such infractions, and from conduct that aids others in such infractions.’ Please know that it is my responsibility as an instructor to uphold the academic integrity policy of the University, which can be found here:

http://studentcode.illinois.edu/article1_part4_1-401.html

Academic dishonesty may result in a failing grade. Ignorance is not an excuse for any academic dishonesty. It is your responsibility to read this policy to avoid any misunderstanding. Do not hesitate to ask the instructor(s) if you are ever in doubt about what constitutes plagiarism, cheating, or any other breach of academic integrity.

Disabilities and Religious Observances: Please contact your instructors or TAs during the first week of classes to make requests for disability accommodations or observation of religious holidays.

To obtain disability-related academic adjustments and/or auxiliary aids, students with disabilities must contact the course instructor and the Disability Resources and Educational Services (DRES) as soon as possible. To contact DRES, you may visit 1207 S. Oak St., Champaign, call 333-4603, e-mail disability@illinois.edu or go to the [DRES website](#). If you are concerned you have a disability-related condition that is impacting your academic progress, there are academic screening appointments available on campus that can help diagnosis a previously undiagnosed disability by visiting the DRES website and selecting “Sign-Up for an Academic Screening” at the bottom of the page.

Family Educational Rights and Privacy Act (FERPA) Statement: Any student who has suppressed their directory information pursuant to *Family Educational Rights and Privacy Act* (FERPA) should self-identify to the instructor to ensure protection of the privacy of their attendance in this course. See <https://registrar.illinois.edu/academic-records/ferpa/> for more information on FERPA.

Sexual Misconduct Policy and Reporting Statement: The University of Illinois is committed to combating sexual misconduct. Faculty and staff members are required to report any instances of sexual misconduct to the University’s Title IX and Disability Office. In turn, an individual with the Title IX and Disability Office will provide information about rights and options, including accommodations, support services, the campus disciplinary process, and law enforcement options.

A list of the designated University employees who, as counselors, confidential advisors, and medical professionals, do not have this reporting responsibility and can maintain confidentiality, can be found here: <https://wecare.illinois.edu/resources/students/#confidential>

Other information about resources and reporting is available here: wecare.illinois.edu.

Inclusivity Statement: The effectiveness of this course is dependent upon the creation of an encouraging and safe classroom environment. Exclusionary, offensive or harmful speech (such as racism, sexism, homophobia, transphobia, etc.) will not be tolerated and in some cases subject to University harassment procedures. We are all responsible for creating a positive and safe environment that allows all students equal respect and comfort. I expect each of you to help establish and maintain an environment where you and your peers can contribute without fear of ridicule or intolerant or offensive language.

Support Resources and Supporting Fellow Students in Distress: As members of the Illinois community, we each have a responsibility to express care and concern for one another. If you come across a classmate whose behavior concerns you, whether in regards to their well-being or yours, we encourage you to refer this behavior to the Student Assistance Center (1-217-333-0050) or online at odos.illinois.edu/community-of-care/referral/. Based upon your report, staff in the Student Assistance Center reaches out to students to make sure they have the support they need to be healthy and safe.

Further, as a Community of Care, we want to support you in your overall wellness. We know that students sometimes face challenges that can impact academic performance (examples include mental health concerns, food insecurity, homelessness, personal emergencies). Should you find that you are managing such a challenge and that it is interfering with your coursework, you are encouraged to contact the [Student Assistance Center \(SAC\)](#) in the Office of the Dean of Students for support and referrals to campus and/or community resources. The SAC has a Dean on Duty available to see students who walk in, call, or email the office during business hours. For mental health emergencies, you can call 911 or contact the Counseling Center.

Netiquette Statement: In any social interaction, certain rules of etiquette are expected and contribute to more enjoyable and productive communication. The following are tips for interacting online via e-mail or discussion board messages, adapted from guidelines originally compiled by ChuqVon Rospach and Gene Spafford (1995):

- Remember that the person receiving your message is someone like you, deserving and appreciating courtesy and respect
- Avoid typing whole sentences or phrases in Caps Lock
- Be brief; succinct, thoughtful messages have the greatest effect
- Your messages reflect on you personally; take time to make sure that you are proud of their form and content
- Use descriptive subject headings in your e-mails
- Think about your audience and the relevance of your messages
- Be careful when you use humor and sarcasm; absent the voice inflections and body language that aid face-to-face communication, Internet messages are easy to misinterpret
- When making follow-up comments, summarize the parts of the message to which you are responding
- Avoid repeating what has already been said; needless repetition is ineffective communication
- Cite appropriate references whenever using someone else's ideas, thoughts, or words

Emergency response recommendations

The Department of Homeland Security and the University of Illinois at Urbana-Champaign Office of Campus Emergency Planning recommend the following three responses to any emergency on campus: **RUN > HIDE > FIGHT**

ONLY FOLLOW THESE ACTIONS IF SAFE TO DO SO. When in doubt, follow your instincts—you are your own best advocate!

RUN

Action taken to leave an area for personal safety.

- Take the time now to learn the different ways to leave your building **BEFORE** there is an emergency.
- Evacuations are mandatory for fire alarms and when directed by authorities. **No exceptions!**
- Evacuate immediately. Pull manual fire alarm to prompt a response for others to evacuate.
- Take critical personal items only (keys, purse, and outerwear) and close doors behind you.
- Assist those who need help, but carefully consider whether you may put yourself at risk.
- Look for **EXIT** signs indicating potential egress/escape routes.
- If you are not able to evacuate, go to an Area of Rescue Assistance.
- Evacuate to Evacuation Assembly Area and remain until additional instructions are given.
- Alert authorities to those who may need assistance.
- Do not re-enter building until informed by emergency response personnel that it is safe to return.

ACTIVE THREAT:

- If it is safe to do so run out of the building. Get as far away as possible. Do not go to the Evacuation Assembly Area.
-

HIDE

Action taken to seek immediate shelter indoors when emergency conditions do not warrant or allow evacuation, such as for severe weather.

- Take the time now to learn the different ways to seek shelter within your building **BEFORE** there is an emergency.
- If you are outside, proceed to the nearest protective building.
- If sheltering-in-place due to severe weather, proceed to the identified Storm Refuge Area or to the lowest, most interior area of the building away from windows or hazardous equipment or materials.

ACTIVE THREAT:

- Lock or barricade your area.
 - Get to a place where the threat cannot see you.
 - Place cell phones on **silent**.
 - Do not make any noise.
 - Do not come out until you receive an Illini-Alert advising you it is safe.
-

FIGHT

Action taken as a last resort to increase your odds for survival.

ACTIVE THREAT:

- If you cannot run away safely or cannot hide, **be prepared to fight with anything available to increase your odds for survival.**
-
