9 The course options for the subject of physics will come up. You will click the "+" for the courses that you are looking to see if they transfer. You will want to pay attention to not only the name but also the credit hours, the better they correlate with the name/credit hours at UIUC the more likely it is to transfer properly.

	Hours	
SICS: HEAT AND ELECTRICITY	3	+
WORK	3	+
YSICS I	5	+
YSICS II	5	+

Scroll or type the name of the institution you are looking for, in our case "University of Illinois Urbana - Champaign" then click the "% Match" button on the left side of the screen.

The screenshot displays a list of search results for universities. Each result is presented in a card format. On the left side of each card is a green button with the text "100% Match". To the right of the button, the university name is listed, followed by its location and a "View Full Profile" link. A yellow star icon is placed to the right of the university name in each entry.

Match Percentage	University Name	Location	Details

Alert! If the course you are trying to take does not transfer in as the direct course option it will not work as a replacement for that course. So if for PHYS the course does not come in as PHYS 101, 211, 102, 212 or for Calculus MATH 220 or MATH 221, it will not transfer properly and you should look at taking that course somewhere else.

Alert! Course articulations that do not transfer correctly may look like: PHYS 1--, UNQ--, etc.
