

What can you do with an IB degree?

The sky's the limit!

Healthcare

Traditional and Non-traditional roles in the health care fields, such as analysts, practitioners, educators, advisors, clinical researchers, and specialists

Animal Biology

Our alums work at zoos, aquariums, animal hospitals, and for the government leading educational programs, caring for animals, and directing conservation efforts

Biotech & Bioinformatics

There are a plethora of opportunities in this growing field at companies such as Illumina, Abbott, Amgen, Epics, and Accenture

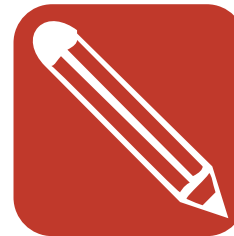

Agriculture & Plant Biology

Our alums have gone on to be Crop Physiology Leads, National Program Leaders, Analysts and Consultants

Sustainability

There are many ways our alums engage in conservation and sustainability - by connecting with the public, engaging in research, affecting policy, and more

Communication & Outreach

IB alums engage with the public in many ways - through advertising, informal and formal education, and directing programs

I ILLINOIS

School of Integrative Biology

COLLEGE OF LIBERAL ARTS & SCIENCES
